

## Connecting to MIT-Wireless Window 7

This guide explains how to connect your BYOD Windows 7 device to the MIT-Wireless network while you are on campus

1. Click on the wireless network symbol at the bottom right hand corner of the screen. Look for **"MIT-Wireless"** and click **"Connect"**- refer to screenshot on the right

2. You will be prompted to authenticate. Enter your MIT username and password and click **OK**.

3. The below security alert may appear. If so, click **"Connect"** to complete the process.

4. You should now be connected to the internet. To verify, try opening Internet Explorer and access any web page.
